

**PUBLIC NOTICE
PUBLIC PARTICIPATION REQUIREMENT
VIRGINIA VOLUNTARY REMEDIATION PROGRAM**

Mall Properties, Inc. and Mercury Mall Associates has requested from the Virginia Department of Environmental Quality (“DEQ”) a Certificate of Satisfactory Completion of Remediation for property located at 2217 West Mercury Blvd. in Hampton, VA. An environmental investigation revealed contaminated soil and groundwater at the property associated with drycleaning operations. Approximately 10,000 tons of impacted soil was removed from the Site and groundwater remediation was performed consisting of permanganate injections. Engineering and land use controls are proposed to (i) prohibit the use of the property for residential purposes, (ii) prohibit use of the groundwater on the site, (iii) impose requirements to protect workers during excavation activities at the Site, and (iv) install and operate a sub-slab depressurization system in any building to be constructed on the Site. DEQ has proposed issuance of the requested Certificate. Written comments on DEQ’s proposed action will be received for 30 days following publication of this notice and should be sent to:

Mall Properties, Inc/Mercury Mall Associates
